

Careers Library

The Library has a Careers Section where you will find information on different careers and jobs, colleges and universities. In addition there are many guides which will assist you in preparing a CV, applying for a job and attending an interview.

For university applicants there are books which will help you make a good application including guides for particular courses e.g. Medicine, Dentistry, Psychology, Law, Engineering, Business and Art and Design. There are Scottish University prospectuses to refer to and some to take away and some of the major English university prospectuses to look at.

There are also books which rate the different courses at universities and books on completing your UCAS application and on Personal Statements.

If you want to have a gap year there are publications which can help you plan your year.

The Careers library is colour-coded for ease of use:

Blue - finding out about careers

Yellow - going to university

Red - going to college

Green - applying for work and training

Orange - taking a year out
