

S2 Curriculum Music & Music Technology

Our S2 pupils visit the department twice a week and experience a vibrant course built on practical music. Pupils choose two instruments or 1 instrument and voice at the end of S1 and focus on the development of these skills throughout S2. They experience creating music using a variety of music technology. Our busy wider achievement programme ensures all pupils can participate in an inclusive whole-school club at lunch or after school and be part of our high profile concerts in December and June.
